- Integrated Power over Ethernet (PoE)

---

### Features and Benefits

- Polycom HD Voice technology for high-fidelity calls at up to 14 kHz – An industry first, an IP conference phone that sounds as natural as being there
- Patented Polycom Acoustic Clarity™ technology – delivering the best IP conference phone experience without compromise
- 12-foot (4-meter) microphone pickup – ideal for small to midsize conference rooms. Add even greater range with optional expansion microphones
- Strong, robust SIP software – leveraging the most advanced SIP endpoint software in the industry, with advanced call handling, security, and provisioning features
- Robust VoIP interoperability – Compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration
- Resists interference from mobile phones and other wireless devices while delivering clear voice conferencing with no distractions
- High-resolution display – enables robust call information and multi-language support
